Basic X-Ray

Techniques Workshop

Fall 2017 Workshop

September 8-9-10-11 & 22-23-24-25

Class will be held at RiverStone Health
123 So. 27th Street | Billings, MT 59101

◊ This seminar is designed for those persons preparing to take the state of Montana X-ray Limited Permit Exam.

◊ The MT Board of Radiologic Technologists require that all limited permit applicants complete 104 hours of classroom AND hands-on clinical practice, prior to MT exam.

◊ Meets the education requirements of the North Dakota Radiologic Health Rules 33-10-06-03 for Limited X-ray Operators.

◊ Registration for our 104 hour program does not provide assistance in acquiring a clinical.

<td>The classroom portion will be held on Sept. 8-11 and continue Sept. 22-25 in the Lil Anderson Center at RiverStone Health. Class will be held from 8am-6pm each day, with the exception of Sept. 25th which will run 8am-3pm. You will have one hour for lunch on your own. You must be present for the entire classroom portion to receive your certificate of completion.</td>
<td>Correspondence Tests will be made available at quizegg.com. Once registration is complete, instructions will be sent to you via email on how to access ALL materials for the course on dropbox.com. This will include study materials, handouts, and at home knowledge assessments. ALL knowledge assessments MUST be completed and graded BEFORE attending the classroom portion.</td>
</tr>

Name: ___________________________________________

Address: _________________________________________

City_____________ State __________ Zip ____________

Telephone: _______________________________________

E-MAIL REQUIRED: ________________________________

Occupation: _______________________________________

Employer: _________________________________________

Employer Address: _________________________________

Before the workshop begins ALL participants must complete the following:

Part 1 Knowledge Assessments: Before attending the workshop ALL participants are required to complete a series (11) of at home tests (knowledge assessments) and pass with a 75% or better on all sections PRIOR to coming to the classroom portion of the workshop. All assessments will be completed online using quizegg.com.

Imaging Equipment Correspondence: Participants must tour a radiology department and get a document signed off by the department supervisor. Participants must also take a picture or draw the control panel you will be working on in your clinic or hospital, then label your picture as stated in the given directions. Hand this in with your signed tour form and series of at home knowledge assessments. If you are not currently employed by a clinic/hospital & DO NOT have access to a control panel, search for one online and follow the same instructions given.
