- Solid waste (other than sharps) possibly contaminated with blood or other bodily fluid is placed in a garbage container labeled "BIOHAZARD" or , lined with a **strong leak proof plastic bag**, tied to prevent leakage for handling and transported safely to the dumpster. Some waste is considered contaminated but not "infectious", examples are gloves, tissues, or ink cups

Consent Forms

- Client signs a consent form before each procedure (even if a returning customer)
- Parent or legal guardian signs in person for any client under the age of 18 and stays onsite for entire procedure.
- If piercing clients under the age of 3, a choking hazard warning is given to the parent or legal guardian
- Records, including consent forms, client records, and spore test results kept for a minimum of 3 years and are available for review by the health department.

License Requirement and Display

- License is displayed in view of clients once it is received. Note: The license is not transferable. This means if you move to a new location, you must apply for a new license. If you remodel your building, add work areas, or change plumbing, you must contact the health authority for a review and approval of your changes.

_____ (initial) I certify that I have never had a professional license denied or cancelled, or voluntarily surrendered, cancelled, forfeited, or failed to renew a professional or occupational license. I have not had an agency initiate or complete disciplinary action against a professional license I have held. If I have, a description of the incident is enclosed.

_____ (initial) I fully understand that approval of these plans and approval of this license is not a grant of licensure for any activities beyond the scope of the rules found in Rule #5 pertaining to tattooing and body piercing including, but not limited to, any activities that may constitute medical procedures or medical practice.

_____ (initial) I understand that approval of these plans and specifications by the health authority does not indicate compliance with any other code, law or regulation that may be require, such as building code permits and inspections, fire and life safety inspections, and other business licenses. If you sharing space at an establishment that has activities regulated by the Board of Barbers and Cosmetologists, contact them for guidance.

_____ (initial) I certify that the information included above is complete and correct. I understand my failure to provide complete, accurate, and truthful information on the application may be grounds for cancellation or denial of this license application.

Signature _____ Date _____

Approval of these plans and specifications by the health authority does not mean compliance with any other code, law or regulation that may be required. Approval of these plans does not constitute endorsement or acceptance for other artists. A pre-opening inspection with equipment will be necessary to determine compliance with the rules governing tattooing and/or piercing establishments.

Frequently Asked Questions

Q. Is a license required for tattooing, cosmetic tattooing, body piercing, or ear piercing in Montana?

A. Yes, a license has been required since 2007. (Title 50, Chapter 48, subchapter 1 MCA and ARM Title 37, Chapter 112, subchapter 1)

Q. If I tattoo or pierce for no charge, do I still need a license?

A. Yes. Offering the services of tattooing, cosmetic tattooing, body piercing or ear piercing on any person, other than yourself, requires a license in Montana.

Q. Once I have my license for tattooing or piercing, can I tattoo or pierce at a client's home, another business, or an event?

A. A license is valid for only one location. Tattooing and piercing are not allowed in a client's home or other unlicensed establishments where conditions of sanitation can greatly vary. A separate license is required when tattooing or piercing at a temporary event, such as a concert or rally.

Q. Where can I get the required training for General Sanitation, First Aid and Bloodborne Pathogens?

A.

General Sanitation – pass the State-administered Sanitation Quiz

- Go to Montana Department of Health and Human Services-Food and Consumer Safety Section website. <http://dphhs.mt.gov/publichealth/FCSS/BodyArt>
- Under “Information for Artists: click on **General Sanitation Quiz**. The password is **piercing**. Complete the Quiz. You will receive an email informing you of pass/fail.
- This certificate does NOT expire.

Bloodborne Pathogen and Basic First Aid

- Training may be completed in-person or online. There are many online classes available.
- Training course must be OSHA compliant
- Artists and operators must maintain current certificates by renewing when necessary. Follow certifying organization guidelines for expiration and renewal.

Q. Are there any other requirements for professional skills and technique?

A. Neither state nor local regulations outline training requirements beyond those above. It is highly recommended, however, that operators and artists complete training in the practice of tattooing and or piercing from a reputable source.

A license must be obtained before a person can operate a Body Art Establishment or perform Body Art.
