Critical Limits for Cooling TCS Foods	Corrective Actions to Take and Document				
Foods must be cooled from 135°F to 70°F within 2 hours and from 70°F to 41°F within the next 4 hours.	Reheat to 165°F within 2 hours to start the cooling process over or for hot holding/service. Reheating can only be done <u>once</u> as a corrective action. Discard if time and temperature requirements of the cooling process were not met.
