

## RESIDENT PHYSICIAN AGREEMENT

THIS AGREEMENT, (the “Agreement”), is entered into as of this \_\_\_ day of \_\_\_, effective as of 20\_\_\_, by and between \_\_\_, (“Physician”), an individual, and Yellowstone City-County Health Department, a multi-jurisdictional service district, d.b.a RiverStone Health (“RiverStone Health”), which administers the Montana Family Medicine Residency Program (the “Residency Program”).

1. EMPLOYMENT. Subject to the provisions contained in this Agreement, RiverStone Health agrees to employ Physician and Physician agreed to be employed by RiverStone Health.

2. DUTIES OF THE PHYSICIAN.

a. The goals of the Residency Program are to provide residents with experience in the art and science of family medicine in order to achieve excellence in the diagnosis, care, and treatment of patients. To achieve these goals, Physician agrees to perform the core functions of a physician, including, but not limited to, the following:

- i. Develop and participate in a personal program of self-study and professional growth with guidance from the Residency Program’s teaching staff.
- ii. Participate in the care of patients as appropriate to Physician’s level of training and abilities under the supervision and direction of an attending physician.
- iii. Participate fully in the educational activities of the Residency Program and assume responsibility for participation in the teaching of more junior residents, as requested by the Residency Program faculty.
- iv. Comply with the curriculum requirements of the Residency Program.
- v. Comply with all Residency Program rules, bylaws, regulations, practices, procedures and policies, professional standards, and codes of ethics of those institutions where Physician shall provide medical services, as well as the rule and policies of RiverStone Health. Physician acknowledges receipt of the RiverStone Health employee handbook and agrees to abide by its terms.
- vi. Attend and participate in the standing committees of the medical staff, especially those that relate to patient care educational activities, as assigned by the Residency Program director or elected by your peers.
- vii. Adhere to ACGME/AOA, Residency Program and Board of Family Medicine policies, rules, and requirements.

- viii. To the fullest extent the law permits this provision to survive the term of this Agreement, Physician shall be bound by and comply with the confidentiality provisions as set forth by federal and state laws and regulations concerning the confidentiality of patient information of RiverStone Health patients or other patients. Physician shall abide by all rules, policies and procedures of RiverStone Health concerning confidentiality, as well as the confidentiality requirements of any hospital or other location where Physician may render professional services as a resident.
  - ix. Comply with Residency, RiverStone Health and ACGME/AOA policies regarding moonlighting, including, but not limited to obtaining permission of the Residency Program director prior to any moonlighting activities.
  - x. Provide call coverage at various times including evenings and weekends in coordination with other residents and faculty in accordance with the bylaws, rules, regulations, and policies of RiverStone Health and hospitals at which Physician is required to provide call coverage, and the ACGME/AOA work hour rules.
  - xi. Participate in professional activities as reasonably requested by Residency Program, including, but not limited to: (a) educational programs conducted by or as requested by the Residency Program; (b) clinic meetings; (c) professional conventions and post-graduate seminars; and (d) applicable professional societies and associations.
  - xii. Physician shall make timely, accurate, and complete entries in all applicable patient records, including electronic health records, to ensure complete recordation of patient care and treatment and RiverStone Health's billing, and in compliance with all applicable ACGME/AOA Residency Program rules and requirements. Physician shall also prepare all reports and correspondence necessary or appropriate, in connection with any services Physician is obligated to provide under this Agreement and as required by the Residency Program. Physician shall also maintain records in accordance with the requirements of the particular hospital or medical practice to which Physician may be assigned. All records, reports, and correspondence prepared hereunder shall belong to RiverStone Health or the particular hospital or medical practice at which Physician provides services under this Agreement. Timely completion of both hospital and clinic medical records are required.
- b. In addition to the specific duties described above, Physician shall:
- i. Continually work to improve the quality of, and maintain a reasonable cost for, the medical care rendered to patients by Physician on behalf of RiverStone Health;

- ii. Assist in all regulatory and agency reviews and assure that Physician's provision of services hereunder is in accordance with prescribed standards;
- iii. Participate and cooperate in the coding process and code services appropriately and accurately based on documented care;
- iv. Devote Physician's full professional time and attention, together with best endeavors and skill for the interest, benefit, and best advantage of MFMR and RiverStone Health and their efforts, to serve and treat patients with quality professional care;
- v. Demonstrate effective communication skills, cooperation, and teamwork with other physicians and RiverStone Health staff to assure the harmonious operation of RiverStone Health and the Residency Program is beneficial to quality patient care; and
- vi. Perform such other duties as RiverStone Health and MFMR shall from time to time reasonably direct commensurate with the duties described hereunder.

c. It is a condition of Physician's employment to provide emergency treatment, when Physician is already providing or undertaking to provide covered services. Physician shall provide emergent or other necessary care to those who are not patients of RiverStone Health under circumstances where the care of the patient, in Physician's judgment, requires Physician's medical services. As an example, but not by way of limitation, if a non-RiverStone Health patient is delivering a baby and the attending physician who is not affiliated with RiverStone Health is not present or requires assistance, and Physician determines in his or her best judgment that Physician's action is warranted, Physician shall utilize his or her best efforts within the scope of Physician's training, to provide care to that patient and the infant.

d. Physician is familiar with, or upon execution of this Agreement shall become familiar with, MFMR's policies and procedures regarding Physicians hours of duty. Subject to those policies, and ACGME/AOA's work hour limitations if more restrictive than the policies and procedures of MFMR, Physician agrees to devote his or her knowledge, skill, attention and energies in performing the usual duties as a Physician to the best of the Physician's ability during the term of this Agreement except in the circumstances of inability due to an incapacitating medical condition. Physician agrees to observe all policies, rules, and regulations of the Residency Program and any participating institutions and physicians while participating herein; and to consider that any infraction thereof will be full justification for discipline up to and including termination from the Residency Program. Physician will consider the salary stated below and the experience and instruction received as sole compensation, and will not accept fees in any form from patients nor engage in any employment outside the Residency Program without the prior written approval of the Residency Program director. Physician will participate in all educational duties and conferences as assigned and meet the Residency Program training

requirements. The Physician will be assigned specific duties on each rotation the Physician participates in. These duties will be given to Physician prior to his or her arrival on that rotation. If at any time Physician is suspended from rendering services at RiverStone Health Clinic or any hospital or Residency Program contracted location or for any reason, RiverStone Health, at its sole discretion, may terminate this Agreement.

e. In the performance of services rendered pursuant to this Agreement, it is mutually understood and agreed that Physician is an employee of RiverStone Health; however, the relationship created by this Agreement shall not affect the exercise of Physician independent judgment from RiverStone Health in the practice of medicine. It is expressly understood that RiverStone Health shall in no way be considered or deemed to be engaged in the practice of medicine and that the method of treatment for patients requiring Physician's services shall be determined by Physician and the Physician's supervising physician. Nothing in this Agreement is intended nor construed to allow RiverStone Health either to have or to exercise control, direction, or supervision over the professional medical judgment, manner, or methods by which Physician performs the medical services that are the subject matter of this Agreement; provided, however, that the services to be provided hereunder by Physician shall be provided in a manner consistent with the recognized standards governing such services. Physician shall not be required to refer any patient to a particular provider or supplier or take any other action Physician determines not to be in the patient's best interest.

Physician does hereby also assign to RiverStone Health all administrative and related fees from the performance of non-medical administrative and related services by Physician, except for those specific non-medical administrative and related services that are mutually agreed upon in writing by the parties to be excluded from this assignment. Any activities provided by Physician outside of Physician's employment hereunder and as listed are not provided for the benefit of RiverStone Health and are not covered by the professional liability insurance provided by RiverStone Health to Physician for services provided pursuant to this Agreement.
